

QUALITY POLICY

1– We are recognized as specialists in Document Security Graphic Services, as well as for our Trajectory as an Organization that provides quality products and services with serious commitment. Thus:

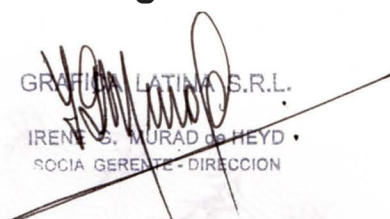

2– We maintain a permanent pursuit of new clients and markets. We constantly work on their loyalty, through our continuous search for solutions to their needs and expectations.

3– We consolidate our Family Business profile, projecting our future on profitability and business growth, based on professional management, a proper line of conduct and good name, and on customer satisfaction, rather than on fleeting results.

4– We consider a pillar of our continuous improvement the permanent development of our work team, in both professional and personal aspects, ensuring a cordial and respectful climate, which promotes motivation and commitment at all levels and sectors.

5– We identify Suppliers, Strategic Partners and Business Chambers, within the set of interested parties of our Organization and we consider them key participants in our Quality Management System, promoting mutually beneficial relationships and shared projects.
